

Cancer Care Hospital & Research Centre Lahore; a mega charity project

Professor Dr. Shaharyar

Founder of Cancer Care Hospital & Research Centre
Foundation

**After a lapse of almost 25 years
a new cancer hospital has opened for public**

2 blocks have been constructed and started treatment while 3rd is under way

The main building block (174000 sqft of construction)

Solar system . An important component

Core values

- In our hospital nothing is more important than the patient. “He is the most important person {VVIP}”
- We don not refuse a patient because of his advanced age , stage or financial status.

Commitment to provide free treatment

- The treatment is free because Pakistan ranks in top ten philanthropies.
- And because God fearing people like you who will never abandon us.
